**Login**

Fill the screen out as shown below.

(Remember that your login is your name – e.g. John Smith)

The screenshot shows the login page for the Friends of the Rail Forum. It includes a search bar at the top right, a navigation bar with 'Login' and 'Register' links, and a main content area with a login form. The form has fields for 'User name' and 'Password', and checkboxes for 'Log me on automatically each visit' and 'Hide my online status this session'. A 'Login' button is at the bottom of the form. Several callouts are present: 'YOUR USERNAME GOES HERE' points to the 'User name' field; 'YOUR PASSWORD GOES HERE' points to the 'Password' field; 'CLICK ON THIS BOX - NEXT TIME YOU COME TO THE FORUM YOU WILL THEN BE LOGGED ON AUTOMATICALLY..' points to the 'Log me on automatically each visit' checkbox; 'DO NOT CLICK HERE' points to the 'Register' link; and 'THEN CLICK HERE' points to the 'Login' button.

You then will be logged in..... and the screen will confirm this – you will see your name in the top left – see below.

The screenshot shows the home page of the Friends of the Rail Forum after a user has logged in. The user's name, 'John Smith', is displayed in the top left corner next to a 'Logout' link. A blue arrow points from the text above to the 'John Smith' text. The page includes a search bar, navigation links for 'FAQ', 'Search', 'Members', and 'User Control Panel', and a 'Board index' link. A table of forum topics is displayed below, with columns for 'Forum', 'Topics', 'Posts', and 'Last post'. The first row of the table is highlighted in red and contains the text 'YOUR FIRST TIME HERE? QUESTIONS ON THE FORUM? PLEASE READ...'. The table lists several forum topics, including 'What You Can Get Out Of The Forum!!!!', 'This Forum - Frequently Asked Questions', 'FOTR Forum Help', 'Testing How To Do Posts...', and 'New Forum Members - Welcome'.

You will then see all the new posts displayed.

Open each one you are interested in a separate window or tab, or read the first one you are interested in and then use the “BACK BUTTON” on your browser to get back to the list of new posts.

Why the “BACK BUTTON”? Quite simply because if you refresh your browser, the list of new posts will also refresh and there will be a list no more – your browser assumes if you refresh that you have “read” the posts in the list, so it does not shown them again!

What an amazing book!

On receiving this, at first sight you wonder what you have got, as it is physically a very small book being only some 4 inches by six and 96 pages long. However, this is all very deceiving!

It is one of the most comprehensive books on signaling that I have ever read, and is packed with information, photographs and diagrams. There is absolutely no waffle at all, with everything being condensed facts and details, which although dry makes it a satisfying read.

The book itself is divided into 11 parts, which cover a total of 35 sections.

The books starts with a summary of the Historical Development of Signaling in Part 1
